ANNOUNCEMENT

**From Housing and the Resilience of Transport Systems and
Infrastructure to Tourism and the Circular Economy: the 2nd Spatial
Planning Conference Gets Underway at Aristotle University**

Thessaloniki, 28/9/2026

Contemporary challenges in spatial planning and spatial development will take center stage at the 2nd Scientific Conference on Spatial Planning and Development, entitled “Resilient Cities and Regions,” organized by the School of Spatial Planning and Development Engineering of the Faculty of Engineering at Aristotle University, on Monday 5 and Tuesday 6 October 2026, at AUTH’s Research Dissemination Center (KEDEA).

The Opening Ceremony will take place on Monday 5 October at 9:30 a.m. at KEDEA. During the Conference, participants will present the findings of more than 150 original scientific papers, with invited experts from academia, local government, as well as consultants and engineering professionals.

“Housing, Urban Development and Inequalities,” “Resilience of Transport Systems and Infrastructure,” “Urban Public Open Spaces and Climate Change,” “Sustainable Tourism Development,” “Socio-Spatial Dimensions of Planning and Sustainable Development,” and “Circular Economy and Waste Management” are some of the thematic areas that will be explored during the Conference.

The organizers invite members of the academic community, researchers, consultants, as well as representatives of public administration and local government to attend the scientific sessions, which cover a broad range of thematic areas related to spatial planning and spatial development, as well as related planning, technological and social sciences.
