PRESS RELEASE

**From Space to Artificial Intelligence: Aristotle University at the 90th
Thessaloniki International Fair – Research and Innovation in Practice**

Thessaloniki, 2 September 2026

With a rich programme of exhibits and activities, Aristotle University (AUTH) is participating in the 90th Thessaloniki International Fair (TIF) from 5 to 13 September 2026, presenting to the public cutting-edge research and technological applications developed across the University.

The opening of the Aristotle University pavilion will take place on Sunday, 6 September, at 11:00, at the Aristotle University exhibition area in Pavilion 17 (Akademia), Stand 35.

From aerospace, nano- and radio telescopes, and motorsport engineering to artificial intelligence, biomedical research, synthetic biology, and the medicine of the future, the exhibits highlight the breadth of research and the creativity of AUTH's student teams and research laboratories.

Health and fitness, accessibility, sustainable tourism, environmental protection, the green transition of shipping, sustainable nutrition, and education are among the fields in which research and innovation at Aristotle University are creating new applications and solutions with social and developmental impact.

At the same time, visitors will have the opportunity to discover innovative student teams, watch simulations, explore exhibits, projects, and applications, take part in interactive activities, and engage directly with the research currently being carried out at Aristotle University.

In addition, visitors will have the opportunity to attend the events taking place in the parallel events area in Pavilion 17.

Attached are the detailed list of Aristotle University exhibits and the programme of parallel events.

We kindly request that this event be published, broadcast, and covered by the media.
