## Matchmaking Event

<http://technologyforum2019.talkb2b.net/>

### April 15, 2019

Aristotle University Research  
Dissemination Center  
Thessaloniki, Greece

## Don't miss the networking opportunities!

#### What is the Matchmaking Event?

The Matchmaking Event aims to promote business, technological and research partnerships bringing together the vivid ICT community from Greece, South-East European countries and beyond. Innovative companies, universities, research centers and other organisations active in the wide ICT sector are invited to expand their network, explore new ideas and develop cooperation potential following a programme of pre-arranged meetings.

#### Why to attend? / Reasons to participate

The Matchmaking Event targets entrepreneurs, researchers, stakeholders and others who are interested in sharing new ideas and identifying business and research partners.

Join the event to:

- Expand your network and find potential partners
- Build partnerships for research and technological collaborations
- Explore business opportunities with innovative SMEs
- Meet innovators, start-up and spin-off companies

Upload your cooperation profile and book meetings with potential partners here:

The Matchmaking Event is supported by the Enterprise Europe Network.

## 6th FORUM

## TECHNOLOGY FORUM 2019

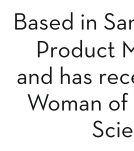

Share IT 2grow

On April 15, 2019, the 6th Technology Forum will be held at Aristotle University Research Dissemination Center in Thessaloniki, Greece. The 20 organizations co-organizing this event are once again involved in the preparation of the next Technology Forum. Technology Forum has been established as a major event in the heart of Northern Greece, Thessaloniki bringing together all actors of the quadruple helix (state, research & academia, industry and civil society). The event aims to present major technological trends and challenges and to be a catalyst for creative synergies, sustainable and innovative technological projects (B2B networking event).

#### More about our key note speakers!

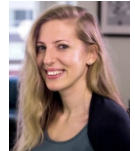

The famous MIT Professor **Costantinos Daskalakis**, honored with international awards for his contribution to understanding the behavior of complex systems and game theory.
