## THE MORPHEUSCUP IN NUMBERS

**1.500** universities & colleges invited to participate

**50.000** euros of prizes to win

**200** teams anticipated for the 2016 edition

**20** disruptive challenges designed by employers and stars of the digital world

**12** selectable themes for the entrepreneurial project (Engineering, Design, Business, Coding, Space, Mobility, Legal...)

**10** jury members from different sectors : technology, marketing, finance,...

**2** exceptional days in Luxembourg and contact with 6000 entrepreneurs, startups and investors

**0** entry fees

### 10 REASONS TO BE SPONSOR

- A championship unique in Europe
- Hundreds of talents from 20 countries
- 19 hours of interaction with the contestants
- A world class jury
- Exhibit at ICT SPRING
- Design of employer challenges
- Possibility to award a prize
- Highly viral social networking
- European press coverage
- Already signed up :  
Warner Bros, PwC, ebrc, KPMG, BMW,  
Telindus, European Investment Fund, Adecco,  
FC Barcelona, Société Générale...

## **THE SCOPE**

*The MorpheusCup was launched in 2015 as a response to a huge problem in the European employment market : a major talent shortage. According to a survey conducted by the European Commission, the “Old Continent” will see this shortfall continue to grow between now and 2020 across virtually all key competences.*

## **THE CONCEPT**

*The MorpheusCup will allow hundreds of students to express their skills and talents over the course of a number of challenges created specifically for the event by the local actors and international personalities who make up the jury of the MorpheusCup.*

*The students are invited to take their destinies into their own hands during this event which will run in parallel with one of Europe’s largest web summits, ICT Spring, with the presence of many major European corporate names during the period of competition. From coding to marketing, passing via FinTech and health, dozens of themes will be tackled during the MorpheusCup and will allow 200 teams made up of hundreds of students from over 20 countries to demonstrate their skills to the maximum and at the same time to attract the attention of their future employers.*

## REGISTRATION PROCESS

Each school can register up to 5 teams.  
Each team is composed of 3 students.  
A team name must be chosen, along  
with a tagline written in English

## REGISTRATION & SELECTION

**THE  
CHALLENGES**

OF TEAM PROJECT**  
(18 MAR 2016)

**THE JURY**

**THE AWARDING  
OF THE PRIZES**

# ***PRACTICAL INFORMATION FOR CANDIDATES***

## **REGISTRATION**

**Registration is open and free of charge and must be confirmed at the latest by 18 March 2016.** Transport and accommodation costs are at each teams own expense. The organisers will provide all the necessary materials for the competition (apart from computers and personal mobile phones), event T-Shirts with the name of the educational establishment and the country it represents, as well as feed and look after the participants during the challenges. On request, a sponsorship kit will also be made available to help you in your efforts to cover your team costs (transport, hotel).

## **SELECTION**

All teams may apply for selection to the final providing they :

- **Have a complete team**
- **Submit a completed application form**
- **Commit to submitting their project to the jury by 22 April 2016 at the latest**
- **Commit to being present for the entire day of 10 May 2016**

## **PREPARATION**

In order to reinforce their digital culture in the wider sense in the build-up to this European championship, the teams are recommended to read the specialist press and to keep themselves up to date with current research and innovations, the major players in business and technology and the latest in startups.

The teams should also train themselves in challenges and classic tests of culture, logic, creativity and speed. Nevertheless, certain trials including gaming or disruptive approaches may take very unexpected forms in order to allow each team to challenge for victory irrespective of their core curriculum.

On this subject, it is recommended that the profiles of the teams be relatively diversified, certain trials being performed in teams, others by a team selected representative for an individual challenge.

## **TEAM PROJECT SUBMISSION**

*At the latest 6 weeks before the event, each team must submit a project presented in a maximum of 10 slides. This should be creative or entrepreneurial and fall within one of the following 13 main categories:*

- Business** *Approaches and tools intended to boost the digital growth of companies*
- Climate** *Tools to monitor and combat global warming*
- Coding** *Project dedicated to advances in coding (utilities, languages, communities) and their uptake by developers*
- Design** *New approaches improving products, interfaces and living spaces*
- Engineering** *Contribution to engineering excellence and industrial redeployment*
- FinTech** *Services linked with the challenges combining finance and technology*
- Food** *Projects aimed at a better agro-alimentary approach*
- Healthcare** *Improvements in the patient/healthcare experience*
- Legal** *Disruptive services, applications and juridical platforms*
- Mobility** *Modernisation of automotive and mobility environments*
- Sharing** *Improvement in share of wealth and support for the deprived*
- Space** *Innovation in engineering and ICT in the aerospace domain*
- Procurement** *Automation and technology is changing our lives and industries. How will the procurement function transform in this environment?*

## **TEAM PROJECT SUBMISSION (CONTINUED)**

*Prizes (in the form of cash, equipment etc) and special awards (one per category) will be awarded. The winners of each category will be invited to pitch (5 minutes maximum) their idea to the Grand Jury of international personalities at the time of the presentation of their prize.*

*In addition a special prize for the best project of 2016 will be awarded. Students wishing to meet investors or partners during the MorpheusCup (11 May during ICT Spring) must make their request at the time of submission of their project.*

***PRACTICAL INFORMATION FOR CANDIDATES***  
***THE CHALLENGES***

## THE CHALLENGES

To give an equal chance to all teams irrespective of their specialities or the curriculum they are following, the contest will consist of common modules in the morning and options or specialist themes in the afternoon, followed by a verbal pitch to the grand jury.

### CHALLENGE SET I (ALL PARTICIPANTS – MORNING)

These plenary challenges call upon a generalised skill set and thus are addressed to all teams, irrespective of their profiles.

Special Jury Challenges | Creativity Challenges | Diamond Sponsor Challenges | UX Challenge | General Culture | Startup Quiz | Viral Champion

## CHALLENGE SET II AT THE SPONSOR STANDS (ALL DAY)

Gaming Tournament | Quiz sponsors | Stand selfie contest | Virtual reality tests | test de pilotage (drone, robots, 3D printing, etc)

## CHALLENGE SET III BY GROUP (AFTERNOON)

The teams will be separated into 6 groups according to their speciality/curriculum: Coders, Business, Marketers, Financiers, Engineers, Designers. Each team may only enter one tournament, which will last for 3 hours.

Coding Challenge | Business Challenge | Marketing Challenge | Fintech Challenge | Engineering Challenge | Design Challenge

<p>UNCOMMON (NON-GIBBERISH) BASE WORD</p> <p>ORDER UNKNOWN</p> <p>Tr0ub4dor &amp;3</p> <p>CAPS? COMMON SUBSTITUTIONS NUMERAL PUNCTUATION</p> <p>(YOU CAN ADD A FEW MORE BITS TO FREQUENCY FOR THE FACT THAT THIS IS ONLY ONE OF A FEW COMMON FORMATS)</p>	<p>~28 BITS OF ENTROPY</p> <p><math>2^{28} = 3</math> DAYS AT 1000 GUESSES/SEC</p> <p>(PLAUSIBLE ATTACK ON A WEAK REMOTE WEB SERVICE. YES, CRACKING A STORED HASH IS FASTER, BUT IT'S NOT WHAT THE AVERAGE USER SHOULD WORRY ABOUT.)</p> <p>DIFFICULTY TO GUESS: EASY</p>	<p>WAS IT TROMBONE? NO, TROUBADOR. AND ONE OF THE 0s WAS A ZERO?</p> <p>AND THERE WAS SOME SYMBOL...</p> <p>DIFFICULTY TO REMEMBER: HARD</p>
<p>correct horse battery staple</p> <p>FOUR RANDOM COMMON WORDS</p>	<p>~44 BITS OF ENTROPY</p> <p><math>2^{44} = 550</math> YEARS AT 1000 GUESSES/SEC</p> <p>DIFFICULTY TO GUESS: HARD</p>	<p>THAT'S A BATTERY STAPLE.</p> <p>CORRECT!</p> <p>DIFFICULTY TO REMEMBER: YOU'VE ALREADY MEMORIZED IT</p>

THROUGH 20 YEARS OF EFFORT, WE'VE SUCCESSFULLY TRAINED EVERYONE TO USE PASSWORDS THAT ARE HARD FOR HUMANS TO REMEMBER, BUT EASY FOR COMPUTERS TO GUESS.

### POUR GAGNER À LA MORPHEUS CUP : NE PAS S'ENDORMIR

Hier matin 19 mai, les résultats de la **Morpheus Cup** ont été communiqués. Cette sorte de coupe d'Europe du digital rassemblant universités et grandes écoles - 47 au total - a réuni pour les pré-sélections plusieurs centaines d'étudiants de 17 pays, répartis en équipes de 3 à 5 membres. La finale s'est tenue sous le haut patronage d'Andrus Ansip, vice-président de la Commission Européenne, à l'**I3CT**.

L'équipe du projet portant l'idée depuis longtemps couvée par Cihan Cengiz (Epitech promo 2018) fait partie des vainqueurs. Son nom : Mapiet's.

Interview de Cengiz.

#### Le chemin de la récompense

« Avant d'être invité au Luxembourg, on a remis notre présentation de projet Powerpoint quelque chose comme 5 semaines avant, pour les pré-sélections et par la suite et selon la pertinence de la présentation, on était retenu, ou pas. On a passé des épreuves durant toute la journée d'hier, notamment des épreuves thématiques approfondies et finalement on a été retenu pour passer devant le jury. »

**GENERAL**  
**Douze équipes belges aux premiers championnats digitaux européens**

Des équipes d'étudiants provenant de différents campus belges participeront ce mardi prochain, à Luxembourg, à la finale de la première édition de la Morpheus Cup, l'unique tournoi européen sur les domaines de l'innovation. La Morpheus Cup est un « championnat digital européen inter-universitaire et grand public ». « Trois équipes belges y ont obtenu l'usage d'une solution de gestion de la maintenance », indique l'annonce. Les trois équipes belges sont les équipes universitaires de la Haute École de Namur (Jean-François « Météo »), de l'Université de Liège (Jean-François « Météo ») et de l'Université de Namur (Jean-François « Météo »). Les équipes belges, avec un total de 12 équipes, ont été sélectionnées parmi les équipes de 17 pays européens (147 des finalistes), avec des équipes de 17 pays européens.

Les premiers gagnants des étudiants et professeurs à l'ICT Spring Europe, un des plus grands événements sur le Web d'Europe, ont été annoncés à Luxembourg, mercredi 13 mai. Les gagnants ont été récompensés par un voyage en avion et un séjour à destination de la capitale de la République de France.

Chaque équipe doit également soumettre un projet d'innovation, via un dossier de présentation. L'équipe est évaluée sur son contenu et sa pertinence, une approche digitale de gestion permetant de répondre à un des défis de l'innovation, qui sont de « l'innovation de l'éducation digitale en Europe » à « l'innovation de la société aux plus jeunes et du partage des valeurs » en passant par « l'innovation des grands défis technologiques et technologiques ».

# ***INFORMATIONS & CONTACT***

## WHERE & WHEN

Those teams who confirm their participation and send in their application forms and project on time may, within the limit of available places, participate in the grand final.

### Place and date

The second edition of the MorpheusCup will take place at the **European Convention Center in Luxembourg** on 10 May 2016. The challenges will take place in parallel with **ICT Spring Europe**, one of the biggest European web events which brings together some 6000 digital leaders, entrepreneurs, startups and investors from 70 countries.

On the evening of 10 May the special prize giving ceremony will take place followed by the MorpheusCup Party. On the 11 May it will be possible to organise meetings with potential employers or to visit (full access) the second day of ICT Spring where you can take advantage of the conferences and the expo zone covering Digital Strategy, Security, Customer Experience and Startups/Venture Capital villages.

### Working Language

The working language of the MorpheusCup is English.

### Authorised Equipment

The use of portable computers and smartphones is authorised.
