Dear students,

You are receiving this email because your university/school is part of a EU funded project called BADGE (Becoming A Digital Global Engineer).

The project aims to create resources for engineering students to develop their communication and language skills in order to prepare them to become global engineers. It also intends to involve students at various stages of the project, the first of which being a logo contest open to all students from the 14 participating institutions. We welcome individual and group entries. Students from other institutions cannot take part.

To enter the contest, submit your logo (together with the attached form, duly completed) by sending it from your institutional email address to badge.eu@gmail.com.
