

PhD studentships, School of Computer Science and Electronic Engineering, University of Essex, UK

PhD studentships are available for EU nationals (exceptional international applicants will also be considered) on topics in communication theory, information theory and security of wireless systems. Sample topics of particular interest include (but are not limited to):

- Physical layer security for smart cyber-physical systems and the IoT
- Cross layer optimization of fog radio access systems
- Signal processing for full duplex communications

Interested applicants are invited to send Dr. Arsenia Chorti an email at achorti@essex.ac.uk including their full CV and the details of two academic referees until the 15th December 2016.
