

**Voronezh State Agrarian University named after Emperor Peter the Great
(VSAU)**

Information Letter

Dear colleagues! You are invited to take part in the “International Scientific Readings: "The scientific heritage of Aristotle and its modern interpretation." The event will be held on May 18, 2016.

The UNESCO has proclaimed 2016 as “Aristotle Anniversary Year”, celebrating 2400 years since the birth of the great Macedonian philosopher and scientist. In connection with the event, our partner Aristotle University of Thessaloniki proposed VSAU to organize the event to honor the universal and interdisciplinary character of Aristotle’s work, and to highlight the significant influence he has had on several diverse scientific fields.

The research fellows, faculty members and young academics are invited to take part in the “International Scientific Readings: "The scientific heritage of Aristotle and its modern interpretation.".

Main Areas of International Scientific Readings:

1. The relevance of the scientific works of Aristotle as an object of philosophical analysis.
2. A place and a role of Aristotelian philosophy in the development of Russian philosophy.
3. Philosophical and ethical heritage of Aristotle.
4. Aristotle, ancient humanities and their impact on Russian pedagogy.
5. Proceedings of Aristotle as a historical source.
6. Philosophical and ethical heritage of Aristotle and contemporary social movements.
7. Aristotle’s teaching in the politics and law.
8. Perception of legal Aristotle ideas by Russian legal thought.
9. The terminology and vocabulary of Aristotle's works and their importance for the Russian linguistics.
10. Physics as a science: from Aristotle to the present days.
11. Science in Russia, and their relationship with the scientific legacy of Aristotle.
12. Antique agronomy and its modern interpretation by the history of science.

The International Scientific Readings information package is going to be published (publications are free). The texts of submitted materials must meet the main areas of conference and the following guidelines.

The text of the article should be carefully edited by subtraction. Materials are published in author's edition. Authors are responsible for the scientific and theoretical levels of published material.

Organizing committee reserves the right to choose the articles for edition.

Materials of the International Scientific Readings will be published as a collection of scientific papers.

The collection will be placed in the Scientific Electronic Library as the printed edition, included in the Russian Science Citation Index (RSCI)

Requirements for Publications

Article size - 6-16 pages.

Paper margins – 2,5 cm at each side.

Font – Times New Roman, 16 points.
